and Children’s Education
- Rtr.Ramesh and team
- 30 Rotaractors and Faculty
Advisor
- Stand alone project

Summary:

DAY 1

The travelling began from school at 3:30pm. We reached Paparajanahalli at 4:30pm which is one among seven villages. We stayed in a government school. The place was very untidy. We cleaned the place for camping, water was fetched from the well and cleaned the toilets. We went around the village to tell about the camp and to send their children to participate in our programme. We all sat together and discussed for the next days program.

DAY2

We woke up at 5:30am and cleaned our surroundings. Later we gathered 35 children and taught them songs and made the children play games. We divided Rotaractors into three groups. The first group went to the village survey, the second one conducted games for the children and the third taught them English songs. In the afternoon we showed videos to the children and there was a session about health and hygiene which was conducted by Rtr.Brijita. Each Rotaractor took two children from the village and taught them stories. Swatch Bharath drama was taught to the village children by there Rotaractors. We Rotaractors had been to Adima, a place where children from different District gathered in order to display their talents.

DAY3

On the third we went to a Eco walk in the morning, it was a bit similar to trekking. Our main motive was to clean the village on this day. So we conducted a game called “Swatch Hunt” in this Rotaractors were divided into 3 groups and were given different places to clean. We all enjoyed doing it and went on till afternoon. In the atfternoon we gathered children and we taught them Art and craft. Later all the Rotaractors took part in planting the saplings, it made the villagers very happy. We had bath in the well. Later in the evening we went to another place to have bonfire and we enjoyed there and came back.

DAY4

After coming back from the Eco walk we had breakfast and got ready and gathered the children we conducted games for the children. Later we had conducted Talent show and we distributed prizes for the children. Then we had 15 mins break , later we Rotaractors gathered together to play a game(treasure hunt). It was indeed a very sportive and enjoyed drinking maaza. We had another game called ice breaker. After the game we cleaned up the [lace where we stayed and packed our bags and left to Anthargange. There we went to a temple and spent some time there. We enjoyed panipuri as sour evening snack and were back to school at 6:10 pm.
